CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community this highly concentrated remedy for diseases of the throat and lungs, it is not our wish to trifle with the lives or health of those afflicted, but frankly to lay before them the opinions of those in whom they have the most implicit confidence, from which they can judge for themselves. We positively pledge ourselves to make no wilful assertion or false statements of its efficacy, nor will we hold out any hope to suffering humanity, which facts will not warrant.

Many proofs are here given, and we solicit an inquiry from the public into all we publish, feeling assured they will find them perfectly reliable, and that a medicine worthy of such extraordinary virtues is worthy their confidence and patronage.

From the distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

Dear Sir: I received on answering the receipt of your preparation until I had an opportunity of witnessing the effects of it in my own family, or in the families of my friends, many in whom were laboring under the most distressing affections of the throat and lungs. That I have done with a high degree of satisfaction, in cases both of adults and children.

I have found it, as the ingredients show, a powerful remedy for colds and coughs, and pulmonary diseases.

CITY AFFAIRS.

In City Council—Petitions presented and referred

—Of Henry Leighton for allowance for damage caused by taking his land in making Webster road.—(To Committee on streets.)

—Of Sewall Moulton and als, that school district No. 4 may be restored to its former limits or united with the city proper.—(To Com. on Pub. Schools.)

—Of A. Waterhouse in behalf of A. S. Rollins for allowance for injury received by him by being thrown from a carriage on Central Bridge.—(To Com. on Streets.)

Reports accepted.

—Of Committee on Accounts on several bills.

—Of the Special Committee on the moving and repairing the City Hall.

The Joint Special Committee of the City Council, appointed by an order of the 8th of April, 1850, with instructions to take into consideration the expediency of removing and enlarging the City Hall and making alterations and improvements in the building such as they should consider important and useful; and who were authorized by said order to manage and conduct all matters concerning said Hall and the land on which it then stood, as they in their discretion should deem advisable, and for the interest of the city, have attended to the duties assigned them, and report—

That the cost of the Hall, with the several additions to the building and the furniture and fixtures for the same, your Committee find to be $6,710 50, which amount was expended as follows, to wit:

For Watchman's Room, City Prison, and ward room, in the basement, as nearly as may be,[*] $1,491 57

For cradle bills of furniture, stoves, cisterns, vane, labor and materials, 1,221 25

For new story, including cost of part above the basement, 1,870 00

For labor and materials on second and third stories and roof, City Hall, 1,827 11

$6,710 50

In accordance with the feeling very generally prevailing among our citizens, of the necessity of observing the strictest economy in the expenditures of the city, your committee have limited themselves to comparatively a small outlay. They regret that the condition of the city finances were such as to render a larger one for this object necessary. It has been otherwise, it would have given your committee much pleasure to have advised the erection of an entire new building of brick or stone, in which could have been finished a hall at least one-third larger than the one we now have, such a building, if finished in a plain cheap style could have been erected for a sum not exceeding fourteen thousand dollars,—but if finished according to other plans, which would have made a beautiful as well as a permanent building, the cost would not have been far from twenty thousand dollars.[*]

The instructions given to your committee by the City Council seem to have met with the general approbation of the citizens, and your committee are much gratified in the reflection that they have been able to adhere so closely to the spirit of those instructions. It is further a source of much satisfaction that almost an entire unanimity of opinion should have prevailed among the members of the committee in the determination of matters connected with the discharge of their duties, that the views of the committee should be carried into effect by the present and future City Councils; they have no doubt an income can be realized from rents of the Hall alone, which will be sufficient to pay at least ten per cent, for the next twenty years on the whole amount expended, including the cost of lot on which the building stands, and this too, after giving the city the use of all the offices in the lower story and basement—and also the use of the Hall for all municipal purposes.

Allowing the city to pay but a moderate rent for the use of offices similar to those now in use in the building it will be seen, at once, that the money expended has been far from a useless or an extravagant outlay.

Your committee further report in reference to the lot from which the City Hall was removed, that the said lot to be, on Hammond street, 135 feet in length about five feet of which is now taken into Columbia street, leaving 130 feet on the front line. Your committee are of the opinion that it would be advisable to leave a passage way of 20 feet in width from Hammond street to the Marshal's office said passage way to be made on the easterly side of the lot, and that the remaining 110 feet be rented for a block of five stores to be built thereon as soon as a satisfactory offer can be had. Each store to be about 20 feet front with two passage ways for stairs on Hammond street, and that the Treasurer be authorized to leave said lot advertised to be let on a term of twenty or thirty years, at a price not less than $750, or $150 for each store.[*]

Your committee would further advise that all buildings erected on said lot should be permanent structures of brick or stone,—and that at the expiration of the term of the lease the city should be allowed to take the building which may have been erected by the lessee, at an appraisal to be made by disinterested persons, to be named in the lease; or to extend the lease for five or ten years on such terms and for such a consideration as shall be determined by the referees. Your committee would further advise that if after having solicited proposals by advertising the premises for a period of four months from Feb. 1, 1851, there should be no satisfactory offers made to the city, the lot should then be graded and enclosed with a neat post and rail fence, with openings or passage ways into the street; and that the lot should then be used as a stand for market teams from the country.

Per Order, S. PAIGE, Chairman.

[*] In the interim is included several bills remaining unpaid, from which there will be deductions before they can pass the Committee on Claims.

S. PAIGE, Chairman.

—Of Committee on Streets on the petition of Jno. Davis and als, to have St. Patrick's Court laid out as a public street.—(Petitioners granted leave to withdraw.)

—Of same Committee on petition of inhabitants of Oldtown for Stillwater Avenue to be extended to Hallow street.—(Petitioners granted leave to withdraw.)

—Of same committee on the petition of F. Muzzy to have Cedar street made.—(Petitioner granted leave to withdraw.)

—Of same committee on the petition of Seth L. Philbrook and als to have Stillwater Avenue continued to Fifth street.

Ordinances passed to be ordained:

Additional to prevent injurious practices, prohibiting the skating or riding upon skates upon any sidewalk or cross walk in the city.—

Additional, relating to sidewalks.

Additional, establishing a Fire Department.

Communication of the Mayor, submitting to the City Council an agreement of the riparian proprietors of the lots on the easterly and westerly sides of Kenduskeag stream, to convey to the city their rights to the Market foundation and flats in said stream, between the Kenduskeag and Central Bridge, on certain conditions.—(Read, and the whole subject referred to a joint special committee, consisting of Messrs. Hobbs, Low, and Hill of the Board of Aldermen, and Messrs. Bartlett, Sawtelle, Ricker, Hatch and Randall, of the Common Council.

We the undersigned being severally more or less interested in real estate situated on the easterly and westerly sides of the Kenduskeag stream, and between the Kenduskeag and Central bridges in the city of Bangor, and claiming as riparian proprietors, that our several lots extend to the centre of said stream; do hereby severally covenant and agree with the city of Bangor, upon the terms and conditions hereinafter expressed, to sell and convey by good and sufficient deed or deeds of quit claim, to said city and their assignees, all the right, title and interest which we severally have either as tenants in severalty or in common, or otherwise, in and to so much of the Kenduskeag stream as is situated within the following boundaries, to wit: commencing on the northerly side of said Kenduskeag bridge at the southeasterly corner of Strickland's New Block, so called; thence running north twenty-nine degrees thirty minutes west about three hundred feet to said Central Bridge; thence north forty-one degrees thirty minutes east by the southerly side of said Central Bridge one hundred and fifty-five feet; thence south twenty-seven degrees forty-five minutes east, about three hundred and eighty feet to a point on the northerly side of said Kenduskeag Bridge one hundred and thirty-six feet to the place of beginning; reference to be had to a survey and plan of the same made by Col. Benjamin S. Deane.

It is however understood that the said covenants and agreements herein before contained, shall not be construed to obligate any subscriber for the performance of any other—Upon the terms and conditions following, viz: That the said city shall by ordinance or otherwise authorize and permit the said proprietors, their heirs and assigns, to build and forever maintain their respective wharves up to the said lateral lines extending as aforesaid from bridge to bridge.

That the said city shall convey to the United States so much of said space between said bridges and lateral lines, as said United States may require for a Custom House, and to be forever used for that purpose.

That the said city shall by ordinance or otherwise authorize the said proprietors to build and maintain substantial bridges from their wharves over all the space between said wharves and said bridges, and the Custom House erected thereon.

That effectual bridges shall have been built and the spaces covered over as aforesaid, the said city shall by ordinance or in some legal manner, duly out and accept the same as public streets and forever after repair and maintain the same.

That the said city shall pay to said proprietors the sum of five thousand dollars and interest on the same from the time of its reception from the United States until paid.

In witness whereof we have hereunto set our hands and seals this third day of February, in the year of our Lord one thousand eight hundred and fifty-one.

(Signed) Hiram Bowman, Sewall P. Strickland, H. Strickland, Jr., Artemas Ladd, (by S. H. and H. Strickland, his Att'y.) Nath'l Harlow, Paul R. Baker, Wm. T. Haines, Hayward Parker, (by his Atty, W. T. Haines,) Ronello Tiwan, (by W. T. Haines, Att'y,) George Stetson, Josiah Stetson.

Taylor G. Vaughan.

Ordered, That the City Treasurer be and he hereby is authorized and directed to cause the lot from which the City Hall was recently removed, to be advertised to be rented for a term of years, and to receive proposals for the erection of a block of stores on said lot according to the recommendation in the report of the joint special committee on the City Hall made this day.

Passed in the Board of Aldermen and laid upon the table in the Common Council.

Adjourned two weeks.

☞ The Judge of the Police Court was busy yesterday in trying offenders for violently obtaining a watch from a young man who it was alleged had drawn the same in a lottery. The case brought together a large number of those having an acquaintance with, and an interest in lottery affairs. It appears from the statements the lottery business although in direct violation of the law, is carried on quite extensively in this city—there being some twenty or thirty schemes now in progress.

The law of this State is very severe against lotteries and provides that if any person shall make, or aid in making any scheme for any lottery, or shall advertise or offer for sale any ticket or part of a ticket in any lottery, or shall sell, or give away, negotiate or dispose of, or shall purchase or receive the same, or shall have in his possession any ticket or paper purporting to be the number of any ticket or part of a ticket of any lottery, with intent to sell or dispose of the same, on his own account or as agent for another, he shall be punished by a fine not less than one hundred dollars and not exceeding one thousand dollars one half of which fine shall be for the use of the person who shall inform and prosecute for the same and the other half to the use of the State.

Governor Quitman.—The telegraphic announcement that Governor Quitman had resigned the gubernatorial chair of Mississippi, had its origin in the following paragraph:

We heard, yesterday, on the street, that Gov. Quitman has resigned his position as Governor of the State of Mississippi, in order to attend his trial here, under an indictment, and, as we think, malicious prosecution, for being concerned in an expedition to Cuba. If this should prove true, the Chief Executive of the State will devolve upon Hon. J. J. Guion, President of the Senate of Mississippi. This gentleman is a Whig, but Kelly, sustains the position of Gov. Quitman in the great question between the North and South.—N. O. Delta, Jan. 22.

☞ We publish to-day with the proceedings of the City Council, the report of the committee on the reconstruction of the City Hall, and also the agreement for the relinquishment of the rights of the riparian owners of the shores to the Kenduskeag Stream and Market foundation. These documents contain facts which are of interest to our citizens and for which frequent inquiries have been made.

New York Correspondence.

New York, Feb. 1.

To the Editor of the Whig and Courier:

Yesterday, Jack Frost made us sensible of his presence in a manner not to be mistaken. The languid step of the pedestrian was suddenly changed into the most lively kind of locomotion, and people seemed to have acquired a sudden fancy for buttoning up their coats and rubbing their ears. In truth, it was a very cold day, and this morning is one of the very same sort.

The Defalcation of a member of the Broker's Board, and his sudden exit with the proceeds of $17,000 worth of stocks, Butterfield Wall street yesterday like an eagle in a dove-cote. How it made the feathers fly! The accused is one Ray Tompkins, Esq., a gentleman who lived in a big house, (not as large as the one he is like to be consigned to, however,) gave parties, and kept his coach and liger. He has played a game, it is said, by no means original with his own fertile genius, viz: buying large amounts nominally for cash, and then realizing a heap of money immediately by forced, yet secret sales of the property thus obtained. He is charged with having got an immense amount of stocks in his hands at the Brokers' Board, and within 24 hours disposed of them and walked off—the cash in the pockets of his very fashionable pantaloons. The same highly elevated description of stock-speculation has been tried with much success in that very respectable body of waiters on the chances, previous to the present interesting occasion. Yet the Government of the Board are said to be very critical in the admission of members. Quite a number of brokers are outside barbarians, and cannot get the entree to the Board for love or money. Three black balls placed the applicant hors du combat, and has thus effectually disjointed among the upper crust speculators. Master Ray Tompkins, however, appears to have deceived the most knowing, and has treated the Board very brown. A more common swindle is to obtain merchandize on cash terms, (to be paid for within ten days, for instance,) and then to realize the money on them by a forced sale before the day for the original purchase shall be due. This is often done with impunity. A firm of very *in-flam* produce-dealers did it in Boston about three years ago, and though they were hauled over the coals by the enraged and energetic gentleman swindled, (swindlers shall I call them?) a small portion of their all-cotton gains sufficed to enlist in their defence the best counsel in the State, the flights of whose eloquence so confused the bewildered jurymen that (not agreeing,) the culprits escaped.

There was an amusing incident at the Special Sessions yesterday. One M. Carthy, being arrested of making a fuss and breaking a lamp in the street, a convicted lawyer stepped forward as *volunteer counsel*, and began to cross-question a witness. "Why," said the witness, "you ought to know all about it, for you were there, and aided the prisoner." Sure enough, this was found to be the case; indeed, he was the instigator of the outrage, and amid much tittering, the would-be lawyer was fined fifteen dollars, in default of which he was committed.

As the birth-day of Washington approaches, the preparations for its celebration are assuming some form and vitality. Would that it might be generally observed this year as a National festival. No better occasion could be found on which to knit together more firmly the bonds of Union between the whole American brotherhood, and to extinguish forever the flames of discord, fanaticism and disorganization. Now is the time for the people to evince the remembrance of the principles, trials and struggles of their forefathers in achieving a republic which is the day-star and hope of every true friend of liberty throughout the world. Now is the time to build higher and higher the monuments that mark the fields which united Americans watered with their blood. A little pile of stones is the only tribute on the battle-ground at Lexington. Is this right? Is it right, that the most memorable places, South and North, in the annals of our Revolutionary history, should exhibit such unworthy evidences of our appreciation?

The Morning Express has added seven columns to its size, to-day, and to its former heading, the words "For the Union." James Brooks, its senior editor, is a member of Congress. Mr. B. first attracted notice by his letters from Europe about 15 years ago.

Robert Rantoul, Jr., the new Senator elected by the coalition in the Massachusetts Legislature, is a strong temperance man, a non-resistant, a lecturer against capital punishment, and a lawyer of considerable ability. He is a middle-sized, thin, pale-looking man, with deep-set, dark piercing eyes, heavy black eyebrows, and a nervous, energetic manner.

We are very much in hopes, of course, that the New York mint bill will meet with the approval of Congress and the President. The question is, where shall we put the mint when we get it? Our Custom House building in Wall street is a nuisance for its present use—a more inconvenient building for the purpose could not have been contrived. It may have room for the New York mint, and it is spoken of for that object. The Merchant's Exchange building might do for a Custom House.

To the Editor of the Whig and Courier:

Many papers, in commenting upon the election of Hon. Jesse D. Bright, as Senator from Indiana, and the defeat of Mr. Benton, state that the latter will probably be returned to the next House of Representatives from the St. Louis District—That cannot be. The election for members to the next Congress took place in Missouri in August last, and the Hon John Darby, a good whig, was elected from the St. Louis District. Of course he will not give way to Col. Benton, or any other democrat. There was but one Benton man elected to Congress from the State at the last election—Hon. John S. Phelps—from one of the back districts, and it is not probably that he will resign to give Col. Benton a chance for an election in his district.

☞ Thos Gardiner Band undertook, a few evenings since, to compliment the editor of the Transcript with a fine serenade, and performed some of their best music near the house in which he had resided, but alas! the good man had moved, bag, baggage and babies, to another part of the city, and the house he left was as cold as an icicle. This is an illustration in favor of every American citizen having a homestead of his own which he may love and improve.

Money, Trade and Commerce.

BOSTON MARKET—Jan 29.

Flour and Grain—The market still continues dull for Flour; small sales of common brands St Louis, Ohio and Michigan at $4 87½, fancy brands $5 25@5 50, and fancy and extra Genesee $5 75@6 25 ⅌ bbl. Southern is dull at $4 87½@5 ⅌ bbl. Corn is in moderate demand at 86 for yellow, and 67c. for Northern Oats brisk 43c ⅌ bush.

Provisions—Sales of mess Pork at $9 37½ for old, and 10 50, 4 mos for small lots of new. Flour at 11 25 (⅌ bbl), 4 mos. Mess Beef sells at 9 50@10 50 ⅌ bbl, 4 mos. Lard is firm at 8c for keg, and 8½@9 ⅌ bbl cash and 4 mos.

Molasses—A cargo of new crop Cuba sold at 29½ cents and small lots to the trade 29@30 cents paid.

Stocks have declined a little to-day.

The money market for a day or two past, says the Boston Journal, has been stimulated by a great evidence of activity, and there was a brisk demand the morning for loans on call, at the current rates. Prime names would pass readily at 7 and 8 per cent.

New York Markets.

New York, Feb. 1.

In Exchange there is little doing and quotations are without change.

Freights—To London we note engagements of 500 half chests tea at 12s 6d and 2000 bbls turpentine 1s 6d. To Liverpool 175 tes beef 1s 9d. To Havre 3 ⅌ cent for Cotton. To California at $1 ⅌ foot.

In money there is no change. It is estimated that in the next four weeks a million per week in gold will be paid out by the Mint, which will replenish the vaults of the banks. The Mint now coining over five millions of gold and its capacity for coinage is stated to be six millions per month—One bank received a hundred thousand dollars to-day, and the payments will continue large after Monday, when the attention of the officers of the Mint will be turned to the coinage of double eagles. It has been for some days past engaged on gold dollars, of which but a moderate quantity can be coined in a day.

Sugar—firm at last quotations. Molasses—nominal at 28s per hhd for molasses.

Freights advanced—$3 per bbl to New York and Boston 25 cts per dis. Board W pine M 25@35c, do P 30@40c. Shooks to Boston each 2½c, coffee 3d quality 0@2½.

Wool—The latest advices from River Plate say "American purchasers are acting with great activity, and have run up prices higher than ever before known in the history of the La Plata. The advance with the exchange will enhance the cost full 50 per cent over last year. If American manufacturers have similar agents in other wool growing countries, they will need a high tariff to enable goods to get back the money. Exports of wool from Buenos Ayres are

Great American Remedy

FOR Colds Coughs Asthma Whooping Cough, Croup, and all diseases of the Chest and Lungs, has now been so long before the public, and its reputation so well established both from recommendations of individuals and from the unexceptionable testimony of individuals by all who have used it, that *it could scarcely be necessary to say anything in its favor*, and the proprietor would not resort to it as a remedy for every other complaint for the same and hundred complaints. A single trial will convince any one that it can never be out of use. In double the usual dose it almost invariably cures the child in the first stages of croup, and no person need suffer it in the last stage.
